

SPLASH SCREEN

Open java -> package -> MainActivity.java and add following below code

```
Public class MainActivity extends AppCompatActivity {

    @Override
    protected void onCreate(Bundle savedInstanceState) {
        super.onCreate(savedInstanceState);
        setContentView(R.layout.activity_main);

        Thread splash=new Thread(){
            public void run(){

                try{
                    sleep(4*1000);
                    Intent splash_intent=new Intent(getApplicationContext(),HomeScreen.class);
                    startActivity(splash_intent);
                    finish();
                }catch (Exception e){

                }
            }
        };
        splash.start();
    }
}
```

Open res -> drawable -> and add following image file such as .jpg & .png"

logo.png

Open res -> layout -> activity_main.xml and add following below code :"

```
<?xml version="1.0" encoding="utf-8"?>
<LinearLayout xmlns:android="http://schemas.android.com/apk/res/android"
    xmlns:app="http://schemas.android.com/apk/res-auto"
    xmlns:tools="http://schemas.android.com/tools"
    android:layout_width="match_parent"
    android:layout_height="match_parent"
    android:gravity="center"
    android:orientation="vertical">

    <ImageView
        android:layout_width="250dp"
        android:layout_height="250dp"
        android:src="@drawable/logo"/>

</LinearLayout>
```

SPLASH SCREEN

Create file -> new -> Activity -> Empty Activity -> Activity name (HomeScreen.java) and add following below code

```
package www.smartandroidcourse.com.splashscreen;

import android.support.v7.app.AppCompatActivity;
import android.os.Bundle;

public class HomeScreen extends AppCompatActivity {

    @Override
    protected void onCreate(Bundle savedInstanceState) {
        super.onCreate(savedInstanceState);
        setContentView(R.layout.activity_home_screen);
    }
}
```

Open res -> layout -> activity_home_screen.xml and add following below code

```
<?xml version="1.0" encoding="utf-8"?>
<LinearLayout xmlns:android="http://schemas.android.com/apk/res/android"
    xmlns:app="http://schemas.android.com/apk/res-auto"
    xmlns:tools="http://schemas.android.com/tools"
    android:layout_width="match_parent"
    android:layout_height="match_parent"
    android:gravity="center"
    android:orientation="vertical">

    <TextView
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:text="Welcome to Smart Android Course !!!!!!!"
        android:textSize="16sp"/>

</LinearLayout>
```

Open res -> values -> styles and add following below code

```
<resources>

<!-- Base application theme. -->
<style name="AppTheme" parent="Theme.AppCompat.Light.NoActionBar">
    <!-- Customize your theme here. -->
    <item name="colorPrimary">@color/colorPrimary</item>
    <item name="colorPrimaryDark">@color/colorPrimaryDark</item>
    <item name="colorAccent">@color/colorAccent</item>
</style>

</resources>
```
